## NOTICE.

BOARD OF HEALTH BILLS—AC-  
COUNT BUBONIC PLAGUE.

The Finance Committee of the Board of Health will close their ledger on APRIL 14th, 1900, at 5 P. M., and all bills, account Bubonic Plague, for the month of January, February and March, should be presented, properly approved, at their office in rear Hawaiian Trust & Investment Co. before the above date.

All bills not so presented, and bills incurred since March 31st, 1900, should be presented at the Board of Health before the above date.

By order of  
FINANCE COMMITTEE OF BOARD  
OF HEALTH,  
CHAS. M. COOKE,  
Chairman.

REGULATIONS FOR THE INTER-  
MENT OF THE DEAD IN THE  
DISTRICT OF HONOLULU.

Except as specially permitted by the Board of Health from time to time, upon showing of satisfactory cause in each case, no interment of the dead shall take place after October 1st, 1900, within the following limits in the District of Honolulu, Island of Oahu:

Commencing at the sea shore at the north point of the land of Halawa, thence following the east boundary of Halawa to the summit of the Koolau mountains, thence easterly along the summit of said mountains to Palolo valley, thence southerly following the line of the east ridge of Palolo valley to the sea shore at the east side of Diamond Head, thence following the sea shore in a westerly direction to the point of commencement.

This regulation shall not apply to the burial of bodies which have been subject to cremation.

C. B. WOOD,  
President Board of Health.  
Honolulu, April 5th, 1900. 5512

## IRRIGATION NOTICE.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 6 to 8 o'clock a. m., and from 4 to 6 o'clock p. m.

ANDREW BROWN,  
Supt. Honolulu Water Works.  
Approved by:  
ALEX. YOUNG,  
Minister of Interior.  
Honolulu, June 14, 1899. 5255

## BOARD OF HEALTH REPLY

Combined Sugar Interests Arraign  
The Authorities in the Matter  
Of "Prophylactic" Passes.

A special meeting of the Board of Health was called yesterday afternoon to consider an important communication from the Hilo Board of Health and a resolution from the representatives of all the sugar interests of this island. The correspondence between the Hilo and Honolulu health authorities speaks for itself. The following is the letter received from the big island:

At a meeting of the agents of the Board of Health, held yesterday, I was instructed to write you the following, concerning the transportation of freight and passengers, between Honolulu and this port.

"Seeing that Hilo is a clean port, and desiring to keep it so, we the agents of the Board of Health of Hilo, deem it necessary to notify the Honolulu Board of Health, that as bubonic plague is still in Honolulu, and not in any definite part of it, we are in great danger of having the disease brought to Hilo by the transportation of passengers and freight as has been brought during the last two weeks, and so, to put ourselves on record, we would state that hereafter, until the disease is twenty-one days out of Honolulu, that no passengers will be allowed to land in the Hilo district, inside of fifteen days' quarantine in Honolulu, and that no freight can be landed in Hilo, except that stated in the freight list arranged for in January, that is, sugar machinery, coin, lime, cement, bags, iron of all kinds, not in closed boxes.

"This district is in no straits for goods, as the people in Honolulu would make you believe; there are plenty of goods in Hilo for all, and will be, as ships come here regularly from the Coast.

"The town and district of Hilo is with us, and we wish this to be understood.

if this movement of ours is not allowed by the Board of Honolulu, for protection to ourselves and community, then we as a body will act no longer as the agents of the Board of Health.

"I have the honor, etc.  
"WILLIAM L. MOORE,  
"Secretary and Agent of Board of Health."

President Wood of the Board of Health replied to the foregoing as below:

"W. L. Moore, Secretary of the Hilo Sanitary Committee.

Sir: The regulations adopted by the Board of Health have been formulated after careful consideration, and apply to all ports of Hawaii, Hilo included. The agents of the Board appointed in the different districts of the islands were instructed when appointed that they were to act for the Board of Health in carrying out its regulations and accepted the appointments with this understanding. When the time comes that the agents of the Board refuse to carry out instructions from this office, the Board can no longer recognize such agents as acting for the Board."

During the discussion following the reading of the Hilo letter G. W. Smith moved that inasmuch as the Board of Health had adopted certain regulations in the matter of travel between this port and the other islands, it was the duty of the Board to enforce those regulations. F. J. Lowrey said that the instructions of the Board of Health were supposed to be carried out.

Dr. Wood stated that the proposition originally came from Hilo to allow nothing on the island of Hawaii from Honolulu without first going to Hilo.

Smith suggested notifying the Board of Health at Hilo that permits to go to the other islands from Honolulu were only issued by the Board of Health after careful consideration, and that the Board of Health could not allow itself to be dictated to by its agents.

Dr. Day thought that if the Board yielded in this matter it would probably be soon receiving a communication from Lihue detailing that the Board allow no passengers for that place who had not been in quarantine for sixty days.

## Sugar Men Speak.

The representatives of the sugar interests on this island, H. Hackfeld & Co., Castle & Cooke, Wm. G. Irwin & Co., M. S. Grinbaum & Co., and J. M. Dowsett, submitted the following resolution to the Board of Health, which was read by President Wood at the meeting:

Resolved, It is the opinion of this committee which represents all the sugar interests on the island of Oahu, that in view of the complaints emanating from the sanitary committees of the non-infected districts of this island, more systematic, consistent and reliable precautions should be taken by the officials of the Board of Health in

the matter of allowing travelers, who have taken Haffkine's prophylactic serum, to take train or cross over the various quarantine boundaries into the clean districts of the island. Complaint is made more particularly as regards the infected clothing of travelers, and which it is claimed is not properly cared for after it leaves the fumigating and bathing establishment, and further that persons having "prophylactic" passes are allowed to visit parts of the city and to ride in vehicles which have not been disinfected before crossing said boundaries.

In view of the fact that it is now more than ever necessary that a systematic, reliable and consistent quarantine should be maintained during the continuance of any cases of plague in Honolulu, so that by further spread of the disease the main industry of the country shall not be affected by the refusal at United States ports of sugars coming from this or other islands, this committee would respectfully suggest that the following methods meet with due consideration by the Board of Health, and further that a paid official be appointed to see that they are systematically and consistently carried out.

Then follow rules and regulations affecting the travel of persons from Honolulu to the non-infected districts. The suggestions are the same in almost every particular as the rules of the Board of Health, already in existence. The following reply, in brief, of President Wood to the above explains matters very clearly:

"In reply to your communication allow me to state that I will be pleased to submit your resolution to the Board of Health at its next regular meeting. In the meantime permit me to say that the Board has issued no 'prophylactic' passes. The resolution passed by the Board of Health concerning the prophylactic was as follows: 'All persons who shall receive injections of Haffkine's prophylactic, shall after an interval of seven days, be allowed to leave Honolulu for other localities, without undergoing preliminary quarantine.' It was distinctly stated by myself at the time that all other conditions concerning the proposed departure were to remain exactly the same as if the quarantine had been performed. The certificate of injection was never intended as a pass, it read as follows: 'This is to certify that Mr. has received an injection of Haffkine's prophylactic.' The regulation concerning permits has never been rescinded. No instructions have been given for the certificates to be used as passes. I was surprised to learn several days ago that these certificates had been accepted as passes and immediately upon learning that such was the case, I gave imperative orders to the Police Department to instruct the guards to refuse permission to anyone to pass without a proper permit, and not to accept a certificate for a permit. These certificates are the personal property of the persons to whom they are issued and cannot be taken up by the guards."

## CEREMONIES AT THE FUNERAL OF ROBERT HOAPILI BAKER.

The funeral of Robert Hoapili Baker, which took place Sunday afternoon at Milliani Hall, was marked by solemn and impressive ceremonies. One of the very last of a Royal Hawaiian line, the dead man was laid to rest with every token of respect and grief. About his bier while the body lay in state for two hours gathered the people who love the legends of a fast-dying race. Tears that were shed for the passing away of a noble descendant of mighty chiefs were dropped with a thought for the glory that had gone forever. Women were not wanting to lay the wreath of sad and loving regard upon the coffin, and men who had known Robert Hoapili Baker in life mourned him dead with a sincerity apparent in word and demeanor.

## JAPANESE VIEWS.

Dr. Mitamura Talks on the Bubonic Plague.

In speaking the allegations in the San Francisco Call concerning the existence of plague in Honolulu being scouted by two well known Japanese physicians representing the Japanese government and an emigration society, Dr. Mitamura denies that any such men are here.

The doctor states that two noted medical men from San Francisco, Drs. Katsuki and Hayeda, are in Honolulu and he believes that one if not both of them have expressed it as their opinion that there is no plague here. These gentlemen have been invited to present their ideas before the Japanese Medical Association. This association supports the Board of Health in believing the plague to exist here.

## Fatal Accident.

A Chinaman attending a centrifugal machine at the Waimanalo sugar mill, while attempting to adjust a belt last Saturday forenoon, was caught and killed by the shaft. An inquest was held and a verdict of accidental death returned.

## Miss Krout's Lecture.

Miss Mary Krout gave her third drawing-room lecture at the home of

Mrs. W. C. Wilder yesterday afternoon. She talked on London and its points of interest, and gave graphic descriptions of some of the officials and ceremonies peculiar to Britain's capital.

## Not After Kamalo.

It is denied by Mr. Geo. Robertson that the American Sugar Company has any intention of buying the Kamalo Sugar Company plantation. The visit of the special committee consisting of Messrs. George R. Robertson, A. S. and G. N. Wilcox, James Wakefield and A. F. Judd, Jr., was for the purpose of investigating the reported shortage of water on the American Sugar Company's property. No information as to the committee's findings has as yet been given out.

## Carmichael Consents.

All who desire to go to the Coast in the steamer on the next Australia can do so. Dr. Carmichael has given his consent provided the intending travelers take the prophylactic not later than this afternoon, as the Australia is booked to sail on the 17th and seven full days must elapse after the injection, before departure.

Judge Silliman heard a section of the William Carson damage case at Chambers yesterday afternoon.

## Made a Mistake.

Macnamara, a burly sailor, filled to the brim with bad whiskey went to the Police Station yesterday to bail out a friend. His method of proceeding was not according to Hoyle and in about two seconds he had declared his intention of pulling down the building and destroying its occupants. He got his coat off gave his trousers a twist, spat on his hands and with a roar like a lion made for Jim Kupieha who was sitting down in the entrance room. Big Jim got up and the two men got together. In about one minute and fifteen seconds the belligerent sailor was as meek as a lamb. He was gently led to a cell and locked up. His friend was not bailed out as Macnamara had troubles enough of his own.

## Opium Fiends.

The opium smokers yet remaining in the Kalihi camp are in a bad way. Their regular supply of the drug has been stopped and so have their rations, yet they cling to the camp, despite Jack McVeigh's general eviction notice to take effect today. Before Chinatown was burned they were housed under the auspices of a Chinese society, but that support is now denied the poor fellows.
